

How to conduct Exams

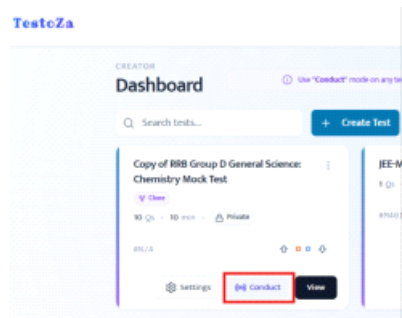

Go to user drop down menu and click on Your Tests.

Monday, June 15, 2026

3:13 /

You will land on 'Creator Dashboard'.

You will find all the test you have created so far.

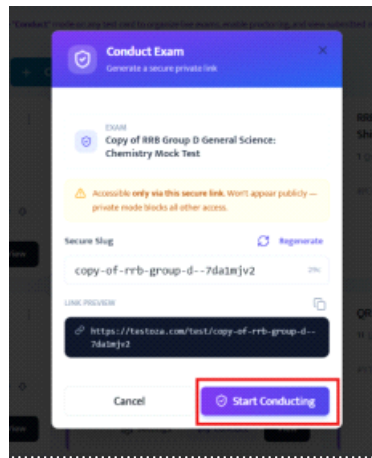

Find your test-card that you are going to conduct among your candidates.

Click on the "conduct" of the test-card.

[You can click on "View" to see your final live test view. You can recheck questions/options/timing/sections and all.

If you want to make change in your test then you can select "edit test" option from three dot menu of the test card.]

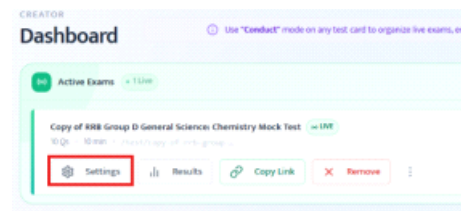

Step:3

A pop up window will open where you can find and regenerate unlisted link of the test card.

Select "Start Conducting" to active the test.

Step:4

Now your test is live and only accessible via link only.

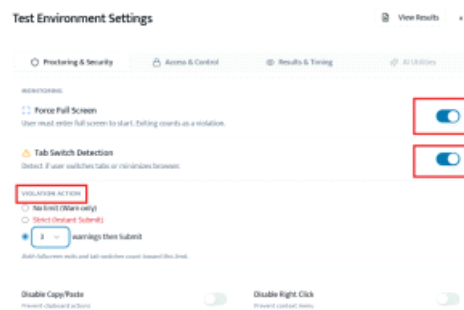

You can see the four options:

- i. Settings: where you can apply proctoring, schedule your test and more.
- ii. Results: where you can see the only submitted results when test is in Active Exam mode (conduct mode).

- iii. Copy link: To copy your exam link.
- iv. Remove: To stop exam.

Click on "Settings".

Step:5

You will land on "Test Environment Settings".

Choose your proctoring preferences.

Click on access & control section for more.

Step:6

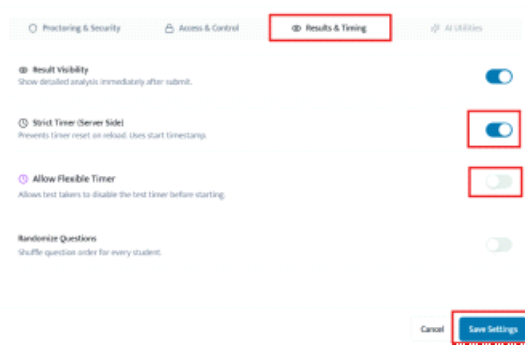

Test Environment Settings

 View Results 

Turn on Attempt Limit and start form for single attempt and collect details before starting the exam respectively.

Now go to "Result & Timing" section.

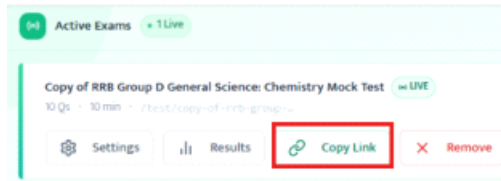

Step:7

Start Serverside timing and disable "FlexibleTimer".

Now Save Settings by clicking on "Save Settings" button below the Test Environment settings.

Step:8

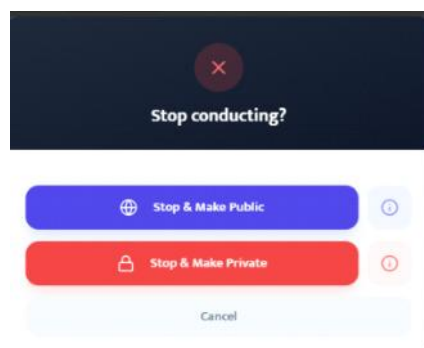

Now you can copy the link and share with your candidates to take the fare examinations.

Results: you can view the Submitted Results from Results dashboard.

Step:9

Remove: you can stop taking responses by removing the test from Active Exam mode.

When you remove exam from active exam mode. You will see two options:

a.

Stop & Make Public: Allow candidates to analyse exam. Anonymous students can also access.

b.

Stop & Make Private: Restrict all further access. Results and exam not visible to anyone.

After choosing any of the option, your test will be Inactive.
