

Primary Market Research Worksheet I: Preparation

(Make a new copy of this worksheet for each market segment you analyze)

I.	Secondary Market Research Sources and Key Lessons Learned: A. Source: NTA (National Testing Agency) announcements & EdTech industry reports. Key Lesson: Major exams (JEE, NEET, SSC, RRB, NTPC and many more) have shifted entirely to digital CBT formats, creating a massive "Simulated Reality Gap" for rural students preparing on paper. B. Source: Local tier-2 newspaper ads & coaching center marketing. Key Lesson: Local centers struggle to justify fees against large EdTech giants (like PhysicsWallah) because they lack the digital mock testing platforms to simulate real exams. C. Source: Academic research on digital literacy in Indian education. Key Lesson: Teachers in Tier 2/3 cities lack access to simple, non-enterprise tools, making a "zero-code" and mobile-first design absolutely essential for adoption.			
II.	What are the profile(s) of the people you want to engage with? (e.g., description of end user, economic buyer, champion, industry analysts, influencers; description should be enough to help you identify, find & deselect potential candidates. Can include demographics & psychographics – see Step #3 for more info) A. 1 st Targeted Profile Name: <u>Coaching Center Director (Economic Buyer)</u> Description: Runs a 50-500 student institute in Tier 2/3 cities. Focuses on center profitability, student retention, and competing with large online EdTech platforms. B. 2 nd Targeted Profile Name: <u>Subject Tutor (End User / Test Creator)</u> Description: Non-technical teacher who relies on paper PDFs. Wants to eliminate hours spent manually grading tests and instantly generate digital exams from existing notes. C. 3 rd Targeted Profile Name: <u>Competitive Exam Aspirant (End User / Tester)</u> Description: High anxiety about digital exam interfaces. Needs a mobile-friendly platform that identically mimics the official NTA portal to practice effectively. D. 4 th Targeted Profile Name: <u>School/College Faculty Member</u> Description: Faculty members seeking scalable online examination and evaluation systems for internal assessments and practice tests. E. 5 th Targeted Profile Name: <u>Online tutors or Youtube teachers (End user / Test Creator)</u> Description: Online tutors or youtube teachers seeking affordable tool by which they can revise and conduct exams in public on mass level.			
III.	Your General Recruitment Script (be clear on who you are, why you want to engage, what you are asking for): Hello sir, I am Nirwair, founder of TestoZa. We've built an online testing platform that helps educators conduct exams in a highly secure, cheat-proof environment. A few things that make us stand out: 📱 Smartphone Friendly: The live test environment works seamlessly on any mobile device. 🔒 High Security: Advanced proctoring ensures no misleading activity takes place. 🤖 AI Analytics: Students get a deep AI-assisted analysis of their results. You can check it out here: https://testoza.com			
IV.	Initial Candidate List to Contact			
	Name & Contact Info	Profile Type	Source	Why You Want to Engage with this Person plus Any Other Info to Build Rapport
	Rahul Sharma (coaching center)	Center Director	JustDial	To know how much tools like TestoZa needed for them
	High school physics tutor	Subject Tutor	Personal Network	To see how much time they waste marking paper exams. Ask about their current struggle with Moodle.
	younger sibling's friend	SSC/RRB Aspirant	School Network	To understand their requirements, fear and unable to access right tools where he can practice their own selected topic and can create test themselves for practice. I tested our mobile proctoring UI.
