Ranking	1	2	3	4
Key Deciding Factors	Highest urgency ("Simulated Reality Gap"). Accessible B2B sales cycle with high strategic B2B2C scale.	High viral potential, but influencer B2B sales are harder to secure than local coaching centers.	Ultimate B2C vision, but direct student acquisition costs are far too high for a pre-seed startup.	Highly accessible locally, but not much requirement because of low batch volumes, lacking acute market urgency.
