## Problem we see

- **Assessment Systems Today Are Inefficient & Weak**
- **Educators spend hours creating structured Test**
- **Sharing Materials are easy but difficult to find on other side.**
- **Conducting tests in anti-cheating env. is expensive**
- **No structured Doc./image-to-test automation**
- **Educators relay on**
  - **Google form(to basic)**
  - **Moodle(Complex)**
  - **Expensive LMS Systems**
- **Connections and sharing among students/educators is not organized**
- **Institutions/Educators has no platform to share organized materials to show study level in public and promote themselves**
- **Students has no specific way to connect with own and other educators/institutions.**
- **No simple and specific infrastructure of easy to find materials shared by others**

## Solutions we give

**TestoZa: social community for all to simply create, share, conduct assessment in secure(anti-cheating) infrastructure, connect with any student/educator/coaching institution.**

### **Core Capabilities:**

- **AI/Machine Learning based auto pdf/ppt/image-to-industry level test card with diagrams.**
- **YouTube video link to Revision Notes and live-test to easily revise the lecture.**
- **User friendly live test environment for tests.**
- **Creators can make test/revision-notes/materials public to benefits others.**
- **Simple section-wise question/marking infrastructure**
- **Create own community and save revision-tests/notes/materials/links in organized way, and easily searchable.**
- **Proctoring & tab monitoring**

**Target Market:**

- Competitive exam students
- Small/Medium Coaching Institutes (JEE, SSC, RRB etc.)
- YouTube educators
- Schools
- Online Tutors
- Competitive exam trainers
- EdTech content creators

**Market opportunity:**

- 250M+ students in India
- ~5 Lakh+ small/medium coaching institutes
- ₹10,000+ crore test-prep industry
- Rapid digitization of education
- Increasing demand for structured digital exams

### Who are the customers?

- Small/medium coaching institute owners
- Teachers & tutors who want to conduct exam among students
- Schools conducting internal exams

### Who is paying?

- Small/medium coaching institutes (monthly subscription)
- Individual teachers (Pro plan)
- Users those who want to use advance AI(Token based)

### Who is using?

- Teachers (test creation, material/video links sharing, community posts)
- Students (attempting exams, follow others, test creation, material/links share, posts)
- Small/medium coaching institutions(showcase their teaching level and promote themselves by creating/uploading their materials to public)
- Verified creators (those who want to share materials/tests/notes and add values to public)
- Admins (monitoring & analytics)

# Competitive Landscape

| Feature                                       | TestoZa | Google Forms | Moodle | LMS | Telegram | Testbook |
|-----------------------------------------------|---------|--------------|--------|-----|----------|----------|
| Create own test/revision Notes                | ✓       | ✓            | ✓      | ✓   | ✗        | ✗        |
| Publish your test/materials to community      | ✓       | ✗            | ✗      | ✗   | ✓        | ✗        |
| Huge collection of PYQ/practice tests         | ✓       | ✗            | ✗      | ✗   | ✗        | ✓        |

| Create own community                          | ✓       | ✗            | ⚠      | ✗   | ✓        | ✗        |

## Unique Selling Point:

### our unique selling point:

- Advanced marking logic and in depth result analysis rarely comes in free platform.
- Built-in proctored controls and schedule option
- There is no other Student-Teacher-Institute dedicated social community based platform
- Simple sharing and easy to search/find any test-link/video-link/material (because of relevant tag feature)
- AI/ML ready architecture. Convert any file to direct test/revision notes generator. (Students can click picture and generate practice-test from given content)

### Why customers would choose us:

- Huge collection of free competitive practice in clean environment than Textbook.com, which is paid.
- Creating manual tests simpler than Moodle.
- More affordable(mostly free) than enterprise LMS
- Community based platform. So anyone can connect with their tutor/coaching/teachers/any relevant creator.
- Any kind of notes/materials can be available.(any student post their coaching/institution's materials/links publicly)

## Unique Selling Point:

### Why we suited:

- Technical founder with deep understanding of computer based exam and assessment background.
- Good understanding of AI and Machine learning.
- We have Built complete MVP independently.
- We have good finance management and marketing skills.
- We have long term vision for AI integration in assessment and solving real-world problem to make human life easy.

## What We Are Good At

- AI and Machine Learning
- Full stack development
- Complex logic Implementation
- Good in finance management
- Core Knowledge in CBT background
- Good in marketing strategy

## What Do We Need Help With?

- Branding and Position Mentorship
- Legal and Compliance advice
- Go-to-market strategy
- Industrial connection
- Pricing strategy
- Funding
- Workspace

- Platform is live [testoza.com](https://testoza.com) and approx 1000 unique viewers has landed.
- Partially functional MVP model
- End-to-End test flow working
- Material/links upload and access
- Admin dashboard functional
- Basic result preview(Advance analysis is in pipeline)
